ESG-UQAM
Département des Sciences Économiques
C.P. 8888, succursale A
Montréal, QC, H3C 3P8, Canada

CURRENT POSITION

2020– Assistant Professor, Department of Economics, *Université du Québec à Montréal (UQAM)*, Canada

OTHER AFFILIATIONS

Fellow, *Institut Convergences Migration*, France 2018–
Affiliate Researcher, *DIAL (Institut de Recherche pour le Développement/*
Université Paris-Dauphine), France 2018–
Honorary Status, *University of Bristol*, U.K. 2020–2021

PAST POSITIONS

2017–2020 Vice-Chancellor's Fellow, *University of Bristol*, U.K.

RESEARCH FIELDS

Primary: Development economics, Urban economics
Secondary: Labour economics, Economic history, Economic geography

ACADEMIC RESEARCH

PUBLICATIONS

Migrants and Firms: Evidence from China (*American Economic Review*, 112 (6): 1885-1914, 2022; [Latest Version](#), [Appendix](#)), joint with C. Imbert, Y. Zhang, and Y. Zylberberg.

WORKING PAPERS

Industrial clusters in the long run: Evidence from Million-Rouble plants in China ([Paper](#), [Working Paper](#)), joint with S. Heblich, H. Xu, and Y. Zylberberg.

Persistence Despite Revolutions ([Latest Version](#), [Working Paper](#)), joint with A. Alesina, D. Yang, Y. You, and W. Zeng.

Random river: Trade and rent extraction in imperial China ([Latest Version](#)).

Migrants' Beliefs and Investment ([Working Paper](#)).

EDUCATION

2013–2017	PhD in ECONOMICS, Paris School of Economics and École Normale Supérieure , Paris. Dissertation: “Three Essays on the Economics of Migration” Supervisor: Flore GUBERT <i>Jury</i> : Sylvie Démurger (CNRS, Lyon), Richard B. Freeman (Harvard, NBER), Marc Gurgand (CNRS, PSE), Alice Mesnard (City U. of London)
2016–2017	Associate of the Department of Economics at Harvard University , U.S.A. Visiting Scholar at the National Bureau of Economic Research , U.S.A.
2015	International Ph.D. Student Attachment Programme at the Hong Kong Polytechnic University , China
2010–2012	Master's degree in ECONOMICS with distinction <i>magna cum laude</i> , Paris School of Economics , Paris Graduate student exchange, Department of Economics, University of California, Berkeley , U.S.A.
2009–2010	Master's degree in ECONOMICS with <i>Distinction</i> , SOAS, University of London , U.K.
2005–2010	Bachelor's in CHINESE LANGUAGE AND CIVILISATION with <i>Mention Bien</i> , Institut National des Langues et Civilisations Orientales , France
2006–2008	Master's degree in PUBLIC POLICY, Sciences Po , Paris
2007	Admitted to École Normale Supérieure , Paris (through a national competitive exam)

WORK EXPERIENCE

[UQAM](#), Canada 2020–

Courses taught: Development Economics (grad), Internal Trade (undergrad), Dissertation writing (grad), Microeconomics (undergrad).

[University of Bristol](#), U.K. 2017–2020

[Vice-Chancellor's Fellow](#) (post-doc): Research in economics — please refer to [Section Research](#) below; founder and organiser of *Flickonomics*, the economics film club of the University of Bristol, financed by two grants from the Teaching Innovation Fund.

[Harvard University](#) and [NBER](#), U.S.A. 2016–2017

[Arthur Sachs Fellowship](#) (paid by Harvard University).

Status: *Associate of the Department of Economics* (Harvard University) and *Visiting Scholar* (National Bureau of Economic Research).

- Sciences Po (Paris), Europe Asia Campus**, Le Havre, France 2014–2015
Professor (design of syllabus, course material, and exams; teaching) of mathematics (24 hours) and statistics (96 hours).
- École Normale Supérieure** and **Paris School of Economics**, France 2013–2016
Paid doctoral contract with École Normale Supérieure.
- World Bank**, Cambodia and Lao P.D.R. 2013–2015
Consultant (298 days).

Cambodia and Lao P.D.R. 2013–2015
Research: Desk research, qualitative field research, survey design (original strategy to establish a sampling frame and extract a representative sample of the population), questionnaire design, data analysis, and final report; study financed by the [Umbrella Facility for Gender Equality](#).
Operational: Project proposal, budget design, hiring of enumerators, coordination with local counterparts (ministries, border checkpoints, and village chiefs), coordination with the survey team, managing of enumerators in both countries.

Cambodia 2014
Firm data analysis and writing for the *Cambodia Investment Climate Assessment (2014)*.

Lao P.D.R. 2013
Research: Data analysis and writing for the *Lao Development Report 2014*; design, analysis, and writing of the background research paper “Labor Market Structural Transformation” (wage evolution decomposition, assessment of sectoral mobility magnitude and impact, urbanisation and migration), and for the 3rd *Lao PDR Investment Climate Assessment (2014)* (analysis of firm data on business performance and challenges, international comparisons using micro and macro data, and analysis of qualitative data that I had collected).
Operational: Coordination with local counterparts (ministries and Lao Statistics Bureau), and qualitative interviews with experts and high-ranking officials.
- China Development Research Foundation**, Beijing, China 2013
Consultant (320 hours). Production of a report on city clusters and on rural-urban migration (“floating population”) in China.
- Centre National de la Recherche Scientifique**, France 2012
Research assistant (1 month). Research on the [impact of land administration programs on agricultural productivity and rural development](#) (in terms of agricultural productivity, environmental sustainability, health, etc.). Project led by Karen Macours, Jérémy Gignoux, and Liam Wren-Lewis (École d’Économie de Paris, CNRS).
- Innovations for Poverty Action**, Morocco 2011
3-month internship.
Research: Implementation of a survey on savings behaviour in rural and urban areas, as part of the [Microsavings & Payments Innovation Initiative](#). Qualitative and quantitative data collection, econometric analysis, final report.
Operational: Hiring of enumerators, budget, coordination with government (*Ministère de l’Intérieur*, local authorities, village chiefs), and management of enumerators in the field.
- Peking University**, Beijing, China 2009

Professor (design of syllabus, course material, and exams; teaching) of French language and literature (120 hours).

Beijing Language and Culture University Press, China 2009
Translator (50 days) a Chinese language textbook.

Institut Français des Relations Internationales (IFRI), 2008
Paris, France
1-month internship. Organisation of the 1st **World Policy Conference** (international conference on global governance).

Le Point, weekly magazine, Paris, France 2008
1-month internship. Investigation journalism on **economic** and **environmental** issues.

French Embassy, Hanoi, Vietnam 2007–2008
4-month internship. Assessment of cooperation and development projects presented by French organisations in Vietnam. Organisation of the French Presidency of the Council of European Union in Vietnam.

Bureau of Foreign Affairs, Hué, Vietnam 2007
2-month internship. Organisation with the local government of the 27th *Assemblée générale de l'Association Internationale des Maires Francophones*.

École Normale Supérieure, Paris, France 2007–2013
Élève fonctionnaire stagiaire: Temporary civil servant contract (paid to study). Admitted through a **national competitive exam**.

RESEARCH

Migrants and Firms: Evidence from China (*American Economic Review*, 112 (6): 1885-1914, 2022; [Paper](#), [Appendix](#)), joint with Clément Imbert (Warwick), Yifan Zhang (CUHK) and Yanos Zylberberg (Bristol).

How does rural-urban migration shape urban production in developing countries? We use longitudinal data on Chinese manufacturing firms between 2000 and 2006, and exploit exogenous variation in rural-urban migration induced by agricultural income shocks for identification. We find that, when immigration increases, manufacturing production becomes more labor-intensive and productivity declines. We investigate the reorganization of production using patent applications and product information. We show that rural-urban migration induces both labor-oriented technological change and the adoption of labor-intensive product varieties.

Presented at: Harvard Cities and Development Workshop (2019), NBER Summer Institute (2019), Yale Agri-Devo Conference (2017), Harvard China Economy Seminar (2016).

Industrial clusters in the long run: Evidence from Million-Rouble plants in China

([Latest Version](#), [Working Paper](#)), joint with Stephan Heblich (Toronto), Hao Xu (CCB) and Yanos Zylberberg (Bristol).

This paper identifies the negative spillovers exerted by large, successful factories on other local production units in China. A short-lived cooperation program between the U.S.S.R. and China led to the construction of 156 "Million-Rouble plants" in the 1950s. The identification exploits the ephemeral geopolitical context and exogenous variation in location decisions due to the relative position of allied and enemy airbases. We find a rise-and-fall pattern in counties hosting a factory and show that a double curse explains their long-run decline. The analysis of production linkages shows that a very large cluster of non-innovative establishments enjoys technological rents along the production chain of Million-Rouble plants. This industrial concentration reduces the local supply of entrepreneurs.

Presented at the 2019 Conference on Urban and Regional Economics (CURE).

Persistence Despite Revolutions ([Latest Version](#), [Working Paper](#)), joint with Alberto Alesina (Harvard), David Yang (Harvard), Yang You (Harvard) and Weihong Zeng (Xi'an Jiaotong).

Can efforts to eradicate inequality in wealth and education eliminate intergenerational persistence of socioeconomic status? The Chinese Communist Revolution and Cultural Revolution aimed to do exactly that. Using newly digitized archival records, contemporary census and household survey data, we show that the revolutions were effective in homogenizing the population economically in the short run. However, the pattern of inequality that characterized the pre-revolution generation re-emerges almost half a century after the revolutions. Individuals whose grandparents belonged to the pre-revolution elite earn 12 percent more income and have completed more than 11 percent additional years of schooling than those from the rest of the population. We find evidence that human capital (such as knowledge, skills, and values) has been transmitted within the elite families. Moreover, the pre-revolution elite either move to opportunities or stay to benefit from the social capital embodied in kinship networks that have survived the revolutions. These channels allow the pre-revolution elite to rebound after the revolutions, and their socioeconomic status persists despite one of the most aggressive attempts to eliminate differences in the population.

Random river: Trade and rent extraction in imperial China ([Latest Version](#)).

This paper exploits exogenous changes in the course of the Yellow River in China to isolate variation in the natural distribution of economic centers across space. I compute time-varying trade costs and collect original data on population and taxation from dynastic histories and local gazetteers spanning 2,000 years. This allows me to assess the effect of exogenous variation in market access on population density and resource extraction. I find that the changes in connectedness have two opposite effects. First, they induce a very large increase in the level and concentration of economic activity in the shorter run. Second, they trigger a large increase in rent capture by local elites, which severely mitigates the concentration effect in the longer

run.

Migrants' Beliefs and Investment ([Working Paper](#)).

Migration increases sending households' capacity to invest but introduces additional information asymmetry between household members. In this paper, I establish a new stylized fact: Migrants systematically overestimate assets that they typically invest in and that are held by their households. This is shown using novel data with matched reports from Senegalese migrants and their own households of origin. I find empirical support for a self-selection mechanism: migrants are more likely to sort into investment, the more optimistic they are about their households' trustworthiness, and reject alternative interpretations based on behavioral biases. I finally assess the extent of missing investments: Selection out of investment is large and severely reduces the developmental impact of migration.

An earlier version was awarded the Grand Prix (first prize) of the International Competition of Master's Degree Theses in Economics and Finance.

POLICY REPORTS AND PUBLICATIONS

2018	Glass Barriers: Constraints to Women's Small-Scale Cross-Border Trade Publications in Cambodia and Lao PDR. In P. Brenton and M. Bartley Johns (Eds.), <i>How Trade Helps Reduce Poverty, and What More Can Be Done</i> . World Bank and World Trade Organization. Joint with Julian Clarke (World Bank) and Richard Record (World Bank).
2017	Glass Barriers: Constraints to Women's Small-Scale Cross-Border Trade in Cambodia and Lao PDR, <i>World Bank Policy Research Working Paper WPS8249</i> . Joint with Julian Clarke (World Bank) and Richard Record (World Bank).
2014	Lao PDR Investment Climate Assessment 2014: Policy uncertainty in the midst of a natural resources boom. Joint with Richard Record (World Bank), Konesawang Nghardsaysone (World Bank) and George Clarke (Texas A&M).
2014	Background paper for the Lao Development Report 2014: Expanding Productive Employment for Broad-Based Growth . World Bank.

GRANTS AND AWARDS

2022	Research grant	SSHRC/CRSH Migrants, Cities, and Development: Evidence from China and Ethiopia, joint with Simon Franklin (QMUL), Clément Imbert (Warwick), and Yanos Zylberberg (Bristol)
2021	Research grant	SSHRC/CRSH Neighborhood change and businesses: multinationals, nightlife, and noise, joint with Kristian Behrens (UQAM), Julien Martin (UQAM), Florian Mayneris (UQAM), Amine Ouazad (HEC Montréal), and Farid Toubal (Paris-Dauphine)
2021	Research grant	CEPREMAP Creation of a land classification algorithm using satellite imagery, joint with Clément Imbert (Warwick), Xiaolun Yu (LSE), and Yanos Zylberberg (Bristol)
2018	Research grant	BA/Leverhulme Small Research Grant Archival research and collection of data from county gazetteers, for “Industrial clusters in the long run: Evidence from Million-Rouble plants in China
2018	Teaching grant	Teaching Innovation Fund for creating and organizing <i>Flickonomics</i> , the economics film club of the University of Bristol
2017	Research grant	Two <i>Ouvrir la Science Économique</i> grants, PSE for the “Million-Rouble plants” project for “Revolution or Persistence? Evidence from China’s Land Reform and Cultural Revolution
2016	Fellowship	Arthur Sachs, paid by Harvard University grant to visit Harvard University for one year
2015	Research grant	DGEF, Ministère de l’Intérieur for the “Migrant Remittances, Information Asymmetry, and Development (MIRIAD)” randomized control trial project, joint with Flore Gubert (IRD, PSE) and Jean-Noël Senne (Paris-Sud)
2015	Research grant	CEPREMAP for the “MIRIAD” project
2015	Scholarship	International Ph.D. Student Attachment Programme, the Hong Kong Polytechnic University grant to visit the Hong Kong Polytechnic University for 6 months
2013	Award	<i>Grand Prix</i> (first prize) of the International Competition of Master’s Degree Theses in Economics and Finance
2012	Scholarship	Fellowship for international study at UC Berkeley graduate student exchange program with the Department of Economics

INVITED SEMINARS

- 2022 SITE, Stockholm School of Economics, Sweden
- 2021 HEC Montréal, Canada
